ADDITIONAL COMMENTS

Year after year the Bastad tournament is chosen by the players as the Tournament Of The Year. That expresses everything this excellent tournament is providing. The tournament is excellently run by Thomas Wallen and Christer Hult and their excellent team of efficient people. Just keep on working like this and the success will continue.

All areas is taken care of. The tournament is very spectator friendly with all kind of arrangements to please the crowd. Sponsors are extremely well taken care of and very much involved in the daily arrangements. Last years only issue, and a vital one, with a bad Centre Court surface, was this year taken care of. A newly laid Court played very well and its drainage system was impressive.

The transportation service is phenomenal. The drivers have to drive 250 kilometers to the nearest International Airport, and they do it at any time.

The Player Lounge is fantastic with the service and all the popular activities provided for the players. Anna and Annika with colleagues are doing an outstanding job.

All other departments including accreditation, secretariat, tournament office and others are working with a fantastic spirit, efficiency and good humour. Outstanding.

Perfect.

Thank you Thomas, Christer and all the staff for providing such an excellent event and for being so supportive to all the ATP Staff. We really feel welcomed in your event.

Comments: great week, no complaints.

Scheduling Comments

Fantastic weather until Saturday. During the final weekend showers but did not disrupt the program.

Qualies played over 3 days

TV local: TV4 with 3 singles on center starting on Tuesday. IEC had the 4 singles from 11am on center broadcasting internationally. No issues with TV, good collaboration.

Wednesday night was the Sunset Tennis match with Soderling vs. Vliegen. The crowd attendance reached a record for that day and the Sunset Tennis concept was a great success.

However, in order to accommodate the tournament with the match Soderling-Vliegen for the Sunset Tennis, that section in the draw had to be broken, which is never ideal. Everything went well this time.

I strongly suggest to avoid promoting in advance, players schedule for a specific day in the week - in this case was Soderling for the Sunset Tennis. Once again this time was a great success and the outcome was positive.

General and Other Comments

First time for me in Bastad and I must say that this tournament is almost flawless. The crowd levels for the week have been very high and the atmosphere is just excellent. Players enjoy tremendously this tournament.

Thomas, Christer and the rest of their staff produce an excellent show! What a pleasure it has been!

Anders Wennberg - tournament referee - also known as the weather master - is a great asset to the event. He facilitates a great collaboration between ATP and tournament staff.

Thank you so much for the kind hospitality and hard work.
